F021A35A012 Forest Green

## Outgraze 50 L 300 mm Non Dimmable Forest Green

Designed by FLOS Outdoor

Integrated 220/240V power supply. Installation brackets, to be ordered separately.  
Extra clear transparent glass, excluding the DIFFUSE version with sandblasted glass.  
SMART version available upon request (power 6W - flux -30% lm).

Are you a professional and your project needs consulting and support?

### Main specifications

Mounting	Ceiling and wall surface
Environments	Outdoor wet location
LED type	Power LED
Lamp category	LED
Iicos	No
Power (W)	8
System flux (lm)	709

### Physical

Colour	Forest Green
Trim	No
Orientation	Adjustable
Transversal tilting (°)	180
Length (mm)	300
IP internal	66

### Download

Mounting instructions [ZIP](#)

### Photometric Files

LDT / IES [ZIP](#)

### Technical Drawings

2D [ZIP](#)

3D [ZIP](#)

## Schematic light drawing

## Photometric

Lighting type	Direct
Light distribution	Symmetric
CCT (K)	3000
CRI>	80
Beam angle C0-180 (°)	29
Beam angle C90-270 (°)	29

## Electrical

Insulation class	I
Frequency (Hz)	50-60
Main voltage (Vac)	220-240
Driver	Integrated
Dimmable	No
Dimming type	Non Dimmable
Emergency type	No

## Ecodesign and Energy Labelling

This product contains a light source of energy efficiency class E

Replaceable (LED only) light source by a professional

Replaceable control gear by a professional

## Notes

We recommend using a connection system with a degree of protection greater than or equal to the degree of protection of the luminaire.

During the installation and the maintenance of the fixtures it is important to be careful and avoid damages on the paint coating.

Damages on the coating exposed to outdoor conditions or water, could cause corrosion.

Chemical substances affect the anticorrosion covering protection.

For LED fixtures, there is evidence that most of the damages are connected to electrical effects related to the insulations, which cause destructive electrical discharges

These effects are frequently caused by:

- over voltage coming from the mains' network where fixture is connected.
- electrostatic discharge (ESD) coming from the environment.

The use of a protective device against the overvoltage on the electrical installation is warmly suggest this helps to reduce the intensity of some of these phenomenon and prevent irreversible damages. The selection of the type of device to be used must be adjust on the electrical plant.

## Accessories & Power Supply

REQUIRED  
Accessory

F021Z010000

Plug&play connector 4 poles

REQUIRED  
Accessory

F021Z030000

4-pole plug&play connector + 3-pole cable, 5000 mm length.

REQUIRED  
Accessory

F990C00A000

2 way terminal block 4 poles IP68 H2O stop. (ø5,5÷12mm cable)

REQUIRED  
Accessory

F990C010000

3/4 way terminal block 4 poles IP68 H2O stop. (ø5,5÷12mm cable)

REQUIRED  
Accessory

F1203012

One pair of short brackets L 80 mm. Forest Green

REQUIRED  
Accessory

F1204012

One pair of long brackets L 200 mm. Forest Green
