

## **GIOVA MEDIUM**

Gae Aulenti, 1964

Half vase, half lamp, Giova marks the debut of Gae Aulenti in the field of lighting design. Available in two sizes, it is both a lamp and a luminous sculpture. Positioned on a metal base is a transparent bowl containing a sphere, which in turn houses the light source. Placed above is a smaller bowl in blown pulegoso glass, meaning 'with irregular bubbles', which serves as a bottom vase.

Table lamp with diffused light not dimmable. Chromed metal frame. Middle globe made of transparent blown glass. Inner globe made of glossy white blown glass. Top half-sphere made of trasparent and coloured blown glass with decorative bubbles. Black power cable, switch and plug. European two-pole plug. Bulb not included.
